

# Connecting People to Providers

## Web-enabled Scheduling Across All Points of Care

Resulting in:

- Appropriate redirection of patients seeking either follow up or primary care.
- Reduced hospital readmissions
- Faster inpatient discharge

*"My Health Direct allows us to connect non-emergent ER patients with the primary care they sought in the first place. Use of My Health Direct lets us help patients in a way that reduces overcrowding and uncompensated care. It is changing the culture."  
– Paul Coogan, MD, Medical Director of Emergency Services at Aurora Sinai, Milwaukee WI*
